

H.E. António Guterres
Secretary-General
United Nations
New York, NY 10017
USA

18 February 2022

Dear Mr. Secretary-General,

I am pleased to confirm that Redwheel (trading name for RWC Partners Limited) supports the Ten Principles of the United Nations Global Compact on human rights, labour, environment and anti-corruption. With this communication, we express our intent to implement those principles. We are committed to making the UN Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. Redwheel will make a clear statement of this commitment to our stakeholders and the general public.

We recognize that a key requirement for participation in the UN Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the Ten Principles. We support public accountability and transparency, and therefore commit to report on progress within one year of joining the UN Global Compact, and annually thereafter according to the UN Global Compact COP policy. This includes:

- A statement signed by the chief executive expressing continued support for the UN Global Compact and renewing our ongoing commitment to the initiative and its principles. This is separate from our initial letter of commitment to join the UN Global Compact.
- A description of practical actions (i.e., disclosure of any relevant policies, procedures, activities) that the company has taken (or plans to undertake) to implement the UN Global Compact principles in each of the four issue areas (human rights, labour, environment, anti-corruption).
- A measurement of outcomes (i.e., the degree to which targets/performance indicators were met, or other qualitative or quantitative measurements of results).

We recognize also the global systemic risk presented by the climate emergency. In supporting the UN Global Compact and its principles, we would like also to announce our intent to become a "net zero" organization by the end of 2022. We confirm also that over the course of the years that follow we will continue to develop and refine our approach to ensure that we remain "net zero" as we move forwards.

In parallel, in order to further increase our impact, we commit also to working with our investment teams and clients on the issue of investment portfolio "net zero" alignment.

Yours sincerely,

Tord Stallvik
CEO
